Different types of languages are spoken by people from different regions but the most important thing is that, any language, when spoken should be spoken correctly. The two common languages that are children should be able to speak fluently are Hindi and English. Since English is a universal language spoken and understood by people all over the world, we want our children also to be proficient in speaking it and for this we need your full support and cooperation. We would appreciate if you adhere to the following points.

A decorative border of colorful flowers surrounds the central text. The flowers are in various colors: red, yellow, green, and blue, with some having spiral centers. They are arranged in a repeating pattern along the top, bottom, and sides of the page.

Speak with your child in English.

Read out story-books with big illustration and after finishing the story discuss it with your child. Emphasis more on phonic sounds and Encourage word building and picture talk.

Children can be encouraged to use simple words and sentences at home like-

\* Ammi please give me something to eat.

\*Please give me a glass of water.

\*Please trim my nails.

\*Please tell me a story.

\*May I help you.

\*I am feeling sleepy.

\*Please buy me a toy.

\*Please give me a bath.

\*Please comb my hair.

# Use of magic words like excuse me,  
Sorry, Thank you, Please...

# You can also train your child to follow simple instructions like-

Open the door, Shut the door, Eat your food, Drink your milk,  
Go to sleep, Brush your teeth, Do your work etc.

If we, as teachers and parents make a sincere effort and pay attention to the above mentioned points we can help our children to learn to understand and speak English from this age.
